7. Be sure to write down your ID number and password. These will allow you access to your online office at **www.youngevityonline.com**.

Here is a list of the companies that I feel offers the best products:

**Youngevity®** - Offers Liquid Colloidal minerals and vitamins this includes the Ultimate pill line.

**Supralife®** - Health products

**Bio-Lumin™** - Health Products

**Ancient Legacy™** - Essential Oils

**Tidal Wave™** - Herbal Products, Water Filter, and excellent Skin Care and Personal Care products.

**YouNique™** - is a subcompany of Tidal Wave™, skin care products

**ProJaba** – offer a line of bee pollen based products

There are more companies under the umbrella of Youngevity® and one of the things you get with your application is a catalog and price sheet.

\*You might also look at setting up the products you get on autoship. This will get the products you need shipped to you each month without you having to remember to order and the main advantage to this method is that on orders over \$50 Youngevity® pays the postage. With autoship you are able to change the products you get if you need to online. However if you wish to stop the autoship you **must send a message** to Youngevity® at **support@youngevity.com** telling them you wish to stop your autoship.
